Preserving, Protecting and Enjoying Alum Creek Together since 1998

October, 2020

Annual Membership Renewal for 2021

Dear Friend,

The Friends of Alum Creek & Tributaries (FACT) requests your continued support by renewing your annual membership to help continue our efforts of making a positive impact on the Alum Creek watershed. Our mission is to preserve and protect the quality and beauty of the Alum Creek corridor, promote citizen awareness and education of the threats to and the benefits of a healthy watershed. As a volunteer organization, the support we receive is highly leveraged with donated time and other resources to make our projects that much more effective. Your contributions help provide this critical foundation.

Thanks to our members, volunteers and dedicated Board, FACT had another successful year in 2020 even though many of our traditional activities were curtailed due to COVID restrictions. With proper precautions we were able to accomplish some litter clean ups, native plant plantings, educational outreach and advocate for the protection of the creek and its tributaries. FACT also commissioned a water quality study along an industrial impacted section of the creek which we forwarded on to Ohio EPA. For further information, check out our **new** website at our same address **www.friendsofalumcreek.org**. Our annual meeting this year will be held on November 12 at 6:30 PM via Skype, if you would like to join us contact us at info@friendsofalumcreek.org for a link.

We hope you will renew or join us as a new member for 2021 by using the enclosed form or contributing on line via our website. If you would like to get more involved please contact me. Thanks for your interest in protecting Alum Creek and your ongoing support.

Sincerely,

Dick Lorenz

FACT Board President
